Tennis Director’s Report

The Tennis Facility has had a great deal of work done in the past month. The contractor will be back in the next week or so to finish up. There has been an awning put along side of Court 3, which will now shade members from the sun while they watch their friends play. In addition, between Courts 6 & 7, the brick pavers really make a statement of class. It does seem to have worked as I have checked out the area after some of the rain we have gotten the past week. The bulletin board now has specific signs for all events, mixers, clinics, etc... Still to be done... Awnings for the front and back courts will be installed next week. Footers will be poured this week.

 - The water cooler on court 8 was stolen last week. No suspects at this time.
 - Need for caps or protection on the ends of the bleachers between courts 6 & 7
 - In the ladies bathroom the locks on the bathroom doors are falling off and makes it very difficult to lock the stall door. I find it embarrassing when other Club members are visiting and need to use the facility.
